Resolution GC(44)/RES/28 adopted by the General Conference of the International Atomic Energy Agency at its 10th plenary meeting, on 22 September 2000

The General Conference,

(a) *Recognizing* the importance of the non-proliferation of nuclear weapons, both globally and regionally, in enhancing international peace and security,

(b) *Mindful* of the usefulness of the Agency's safeguards system as a reliable means of verification of the peaceful uses of nuclear energy,

(c) *Concerned* by the grave consequences, endangering peace and security, of the presence in the Middle East region of nuclear activities not wholly devoted to peaceful purposes,

(d) *Welcoming* the initiatives regarding the establishment of a zone free of all weapons of mass destruction, including nuclear weapons, in the Middle East and recent initiatives regarding arms control in the region,

(e) *Recognizing* that full realization of these objectives would be promoted by the participation of all States of the region,

(f) *Commending* the efforts of the Agency concerning the application of safeguards in the Middle East and the positive response of some States in concluding a full-scope safeguards agreement, and

(g) *Recalling* its resolution GC(43)/RES/23,

1. *Takes note* of the Director General's report in document GOV/2000/38-GC(44)/14;

2. *Affirms* the urgent need for all States in the Middle East to forthwith accept the application of full-scope Agency safeguards to all their nuclear activities as an important confidence-building measure among all States in the region and as a step in enhancing peace and security in the context of the establishment of a nuclear-weapon-free zone;

3. *Calls upon* all parties directly concerned to consider seriously taking the practical and appropriate steps required for the implementation of the proposal to establish a mutually and effectively verifiable nuclear-weapon-free zone in the region, and invites the countries concerned to adhere to international non-proliferation regimes, including the Treaty on the Non-Proliferation of Nuclear Weapons,[1] as a means of complementing participation in a zone free of all weapons of mass destruction in the Middle East and of strengthening peace and security in the region;

[1] See *1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons: Final Document, Part I* (NPT/CONF.1995/32 (Part I)), annex.

5. *Requests* the Director General to continue consultations with the States of the Middle East to facilitate the early application of full-scope Agency safeguards to all nuclear activities in the region as relevant to the preparation of model agreements, as a necessary step towards the establishment of a nuclear-weapon-free zone in the region, as referred to in resolution GC(XXXVII)/RES/627;

6. *Calls upon* all States in the region to extend their fullest cooperation to the Director General in the fulfilment of the tasks entrusted to him in the preceding paragraph;

7. *Also calls upon* all States in the region to take measures, including confidence-building and verification measures, aimed at establishing a nuclear-weapon-free zone in the Middle East;

8. *Calls upon* all other States, especially those with a special responsibility for the maintenance of international peace and security, to render all assistance to the Director General by facilitating the implementation of this resolution; and

9. *Requests* the Director General to submit to the Board of Governors and to the General Conference at its forty-fifth regular session a report on the implementation of this resolution and to include in the provisional agenda for that session an item entitled "Application of International Atomic Energy Agency safeguards in the Middle East".

Annex II

Presidential statement

In the context of the agenda item entitled "Application of International Atomic Energy Agency safeguards in the Middle East", the General Conference requests the Director General to make arrangements to convene a forum in which participants from the Middle East and other interested parties could learn from the experience of other regions, including in the area of confidence-building, relevant to the establishment of a nuclear-weapon-free zone.

It calls on the Director General, with States of the Middle East and other interested parties, to develop an agenda and modalities which will help to ensure a successful forum.
